

Pedestrian Safety: Analysis & Solutions

1) The Divergence: Shielded Inside, Endangered Outside

3) Environmental Factors: Darkness and Missing Sidewalks

Time of Day

Infrastructure

2) The Geometry of Impact: Bumpers vs Grilles

4) Designing for Survival: Policy & Infrastructure

New Vehicle Standards (e.g. Pedestrian impact ratings, lane, horns)

Nighttime AEB (e.g. mandating systems that work in day)

Complete Street Design (e.g. wider sidewalks, lighting, reduced lanes)
